EXECUTIVE SUMMARY

Product-minded **Android Developer with 2+ years of hands-on experience** engineering scalable, high-performance mobile applications using **Kotlin, Java, and Jetpack Compose**. Founder of **Setubandh Tech** with a proven track record of publishing 8 live apps on Google Play Store crossing **1.5M+ combined global downloads**. Expert in modern Android Architecture (MVVM, Clean Architecture), NFC hardware scanning, Room DB, complex UI animations, custom camera pipelines, and real-time GPS services.

PROFESSIONAL EXPERIENCE

Android Developer • SmartOnSolution Feb 2026 — Present

- Digital Card Wallet — NFC Reader [Live App]:** Engineered the complete native Android app independently using **Jetpack Compose**, handling end-to-end hardware NFC card scanning, ISO 7816 / IsoDep APDU protocol reading, encrypted local data vault, and modern Material 3 UI.
- Implemented reactive UI state management with **Kotlin Coroutines & Flow**, reducing memory overhead by 25% and ensuring 60fps smooth animations.

Native Android Developer • Susamp Infotech Mid 2024 — Feb 2026

- Architected and maintained 5+ production Android applications with **Kotlin, Jetpack Compose, and MVVM Architecture** serving 500k+ active users.
- Digital Compass: GPS Direction (10k+ Downloads):** Built a feature-rich navigation suite featuring real-time sensor fusion (magnetometer/accelerometer), telescope/Qibla compass modes, live GPS speedometers, and Google Maps layer overlays.
- GPS Map Camera Lite:** Designed custom camera surface rendering with real-time GPS location timestamping, address reverse-geocoding, and custom text sticker overlays.
- Hourly Chime & Survey Not Cam:** Integrated Android Foreground Services, AlarmManager, Text-to-Speech (TTS) in multi-languages, and custom hardware photo gallery storage for field survey teams.

Founder & Lead Developer • Setubandh Tech 2026 — Present

- CashFlow: Expense Tracker:** Created a privacy-first budget management app with Room Database, dynamic category charts, and budget threshold notifications.
- SafeTap: SOS & Safety Check-In:** Developed an emergency check-in app with real-time SMS/Location dispatch, automated background ping services, and one-tap SOS triggers.

TECHNICAL EXPERTISE

Core & Languages:	Kotlin, Java, Dart, Object-Oriented Programming (OOP), Data Structures
Android & UI:	Jetpack Compose, Android SDK, MVVM Architecture, Clean Architecture, Material Design 3
Data & Storage:	Room Database, SQLite, REST APIs, Retrofit, Kotlin Coroutines, StateFlow, Dependency Injection
Hardware & Features:	NFC Card Reading (ISO/APDU), GPS & Google Maps API, CameraX / Sensors, Foreground Services
Tools & Workflow:	Android Studio, Git / GitHub, Google Play Console, Flutter, N8N Automation Cloud, Figma

EDUCATION & CREDENTIALS

Bachelor of Computer Applications (B.C.A) 2023 — 2026
Swarnnim Startup & Innovation University — Gandhinagar, Gujarat
